

# Army Of Angels

Kerli

I've been watching you silently  
blind-fold calming you violently  
Feels like you're falling and there's  
No one out there, no one out there

Sleep walk wandering aimlessly hands  
tied keeping you perfectly safe  
No searching nor questioning  
Follow me

An army of angels  
we'll take you away  
An army of angels  
Prepare to invade, don't be afraid  
your life starts today

Earth-quakes ending you quietly  
wake up turning you painlessly  
When your broken down hopelessly  
Follow me

An army of angels  
we'll take you away  
An army of angels  
Prepare to invade, don't be afraid  
Your life starts today

You live, you love, you cry  
but you're not alone  
you breathe to die  
I'm here if you don't  
Believe your eyes  
When your world starts to change  
it's real you fly  
you're not on your own

An army of angels  
we'll take you away  
An army of angels  
Prepare to invade, don't be afraid  
Your life starts today (an army of angels)  
we'll take you away  
an army of angels  
Prepare to invade, don't be afraid  
your life starts today
