

Love Me Or Leave Me

Kerli

Sitting here watching you go, for all I know this could be it
It's been awhile since you have kissed me like you mean it
Been working out, you smell so good, it's not for me
I don't mean to push you but just say that you don't feel it

Love me or leave me or quit me or keep me
Whatever it is you're feeling, I just need to know
Love me or leave me, grip me or free me
I know that you're out of love so say it isn't so

Or please just let me go, or please just let me go

Minutes turn hours and I keep waiting, staring at the door
I don't wanna' lose you but I can't hold on forever
All these love affairs where no one cares are not for me
So give me your everything or give me nothing ever

Love me or leave me, quit me or keep me
Whatever it is you're feeling, I just need to know
Love me or leave me or grip me or free me
I know that you're out of love so say it isn't so

Or please just let me go, or please just let me go

It kills me every time you can't say it back
I'll pretend I'm fine but I'm about to crack
Bleeding dry of faith, I just miss you so
Pull me closer now or please just let me go

Love me or leave me or quit me or keep me
Whatever it is you're feeling, I just need to know
Love me or leave me, grip me or free me
I know that you're out of love so say it isn't so

Or please just let me go, or please just let me go
Or please just let me go
