

# Rescue Me

Kerrie Roberts

This waking nightmare lingers  
When will the mirror stop telling lies  
I don't know where I've been  
Or where I'm going  
But I can't do it alone  
I'm reaching out

Rescue me  
Show me who I am  
Cause I can't believe  
This is how the story ends

Fight for me  
If it's not to late  
Help me breath again  
No this can't be how the story ends

I'm locked up and waiting for you  
I've lost so much more then I'll ever know  
Love has the truth forgotten  
Find me now  
Before I lose it all  
I'm crying out

Rescue me  
Show me who I am  
Cause I can't believe  
This is how the story ends

Fight for me  
If it's not to late  
Help me breath again  
No this can't be how the story ends

Haa-haa-haa-haa-haaa x6

Rescue me  
Show me who I am  
Cause I can't believe(I can't believe)  
This is how the story ends

Fight for me  
If it's not to late(not to late)  
Help me breath again  
No this can't be how the story ends
