

Sing

Kerrie Roberts

I'm like a flower, just a shadow
Here today, I fade tomorrow
But the hourglass is in Your hands
The seasons change but You never fail
And I just want to praise You, Lord

And sing out loud
No, I won't be quiet
I'll sing and shout
I cannot be silent
You put the music in my heart
It's screaming out
I feel like jumping
Feel like dancing for You now
And sing out loud
No, I won't be quiet
I won't be silent, no

And Lord, You know it
Sometimes the morning
It hits me hard
Don't really feel like trying
But I remember You
And all You do
I make the choice to use my voice

And sing out loud
No, I won't be quiet
I'll sing and shout
I cannot be silent
You put the music in my heart
It's screaming out
I feel like jumping
Feel like dancing for You now

Can't keep this spirit under lock and key
I need to set it free and sing
Praise our God, praise our God, praise our God
Let His praise be heard
Praise our God, let His praise be heard
Praise our God, let His praise be heard

And sing out loud
No, I won't be quiet
I'll sing and shout
I cannot be silent
You put the music in my heart
It's screaming out
I feel like jumping
Feel like dancing for You now
And sing out loud
No, I won't be quiet
I won't be silent, no
