

# Unstoppable

Kerrie Roberts

Be strong, be brave, be beautiful  
One of these days you'll have it all  
If you believe you can

Wake up and hold your head up high  
Challenge your future to a fight  
Open up your hands

No more lonely house of tears  
Slam the door on all your fears  
They're not welcome here

Anything is possible, possible  
You've gotta believe and see  
That love is unstoppable

You could never go too far  
Never been too gone  
But you can turn it around  
You will see that love is unstoppable

Keep going, keep going  
Keep pushing, keep pushing

Sometimes life seems so typical  
Some days you might see a miracle  
But if you believe you can  
Keep pushing, keep pushing

This world, this cool, this crazy place  
Makes you feel like you're losing everything  
Your mind, your faith, your way

But you can find it all again  
Reclaim your innocence  
You know it's not the end

Anything is possible, possible  
You gotta believe and see  
That love is unstoppable

You could never go too far  
Never been too gone  
But you can turn it around  
If you will see that love is unstoppable

Keep going, keep going  
Nothing's going to break you down, stop you now  
(Keep pushing, keep pushing)  
Possible, possible  
(Keep going, keep going)

Nothing's ever going to be that bad, hold you back  
(Keep, keep, keep pushing, keep pushing)

You can never go too far  
Never been too gone

But you can turn it around  
Just believe that anything's possible

Nothing's gonna break you down, stop you now  
Keep going, keep going  
Love is unstoppable  
Keep pushing, keep pushing

Anything is possible, possible  
You gotta believe and see  
That love is unstoppable

It could never go too far  
Never been too gone  
But you can turn it around  
You will see that love is unstoppable
