

# They Will Never Understand

Kerser

Yeah, just gonna let it all out on this one  
Its not all fun and games  
This is peoples lives  
This is my life

[Verse 1]

See me happy man? Thats a fake smile  
I got a lot on my plate this might take a while  
Take a seat turn your brain off and listen up  
And maybe by the end you'll know why I don't give a fuck  
We was living in hell, I thought of killing myself  
Got boys sitting in cells, I try to spit cause it helps  
Plus my dads sick my life is getting drastic  
And magazines had the high to ask me "Whats this lad shit?"  
I give a fuck about a trend or an adlay,  
I only dress like this just to show you I have pay  
Cause I ain't used to that I used to be a putrid chat  
And ain't no way will you ever find me moving back  
I'm proving facts that I'm nice on the beat  
I like to take away the lives of people ice on the street  
Cause I've seen it ruin lives, breaking families to bits  
And don't you call that shit soft, come and handle how we live kid

[Hook]

Its all out and its going around  
Its the only reason why I put the bottle down  
They will never understand, I'm the way that I am  
Until they do I guess I'm gonna have to say it again  
I try, fly by, but my mind is side swiped  
At night night, I fight fight and bye bye  
I try hard but I can't escape  
I'm so real, too real, nah I can't be fake

[Verse 2]

That addiction is yours, don't inflict it on others  
Your mistake me are you listening fucker  
I ain't need to see the whole crew fucked up  
This shit be spreading like a plague and people see but shut up  
You need to speak about the evil you see  
But no one wanna do that fuck it leave it to me  
My older brother in rehab I should be by his side  
But I ain't got the guts, he's stronger I will do it in time  
Hah, do it in time, thats all I ever tell myself  
Cause if I put it off that means today I can just do myself  
And doin me that ain't something that you wanna be  
Without the rhymes I'm nothing just a loser now I gotta see  
The truth hurts, so this album took the life of me  
I'm just me its fucked its nothing I even try and be  
When I say I'm real don't think that I'm talking tough  
I mean that I'm real and I am just a fuck up

[Hook]

[Verse 3]

At the moment its the truth I'mma speak it  
Tell the truth I'm too scared to release it  
That kinda contradicts my other tracks I do know

Call me a liar I ain't know what to do bro  
Never happy deep down I'm fucked up  
Bud puffed, drugs tucked, left side, lung crushed  
Thats enough to make me quit right there,  
You would think so but to quit I swear  
I would have to change my life and get the fuck away  
Tomorrow ain't exciting man its just another fucking day  
I'm skin and bones, I'm a motherfucking wreck shit  
I meant to let 'em know that I will never tread quick  
Cause I'm scared I ain't feeling like I'm better yet  
I'm walking slow and its getting worse with every step  
I run away and meet the front of a train  
The side covered in stains, I'm high and nothing remains, nah

[Hook]

[Outro]

Yeah, and I find it ironic  
That the higher I get  
The lower I'm digging myself in a hole  
Its funny that

Yeah come outside aye  
But as soon as, as soon as fucking Australian Idol  
Fuck me dead, Australian Idol cunt
