

## Edit, Cut & Delete U

Keshia Chanté

You had me almost convinced that  
Something really special was about to happen  
In our lives ya ya you said that  
But now it seems like you don't really mean what you were saying  
You thought that you could play me  
Thought you could have me hooked on you so easily  
Thought wrong ya you shoulda known that  
This aint no chick  
This aint no chick  
That you should be messing with

You keep telling me that I'm the only one  
You keep telling me that I'm the only one  
You said that I'm the one  
But I know that you mess around with just about everyone

No I gotchu now  
No I gotchu now  
No I gotchu now where I want you  
It's all over now  
All over now

Its too bad for you now you lost me  
So whats up with that running back looking for forgiveness  
I moved on I hope you get there  
I've already written you off of my list  
Crying trippin off now  
As if you dont know what goes around comes around  
Oh no who's playing who now
