

# I Miss U

Keshia Chanté

Long sleepless nights  
and everything's not right  
you should be here by my side  
Things just ain't the same  
how could we let it change  
cause we were everything

I need you to know  
I'll never let go of you and me  
And I need you to trust  
the love between us  
when times are so tough I need you to see

That I miss you, eh eh  
That I miss you, eh eh  
That I miss you, eh eh  
At the end of the day I need you to say  
I miss you  
I miss you

Long restless days  
I'm battling with this pain  
wish you could take it away from me  
We're miles and miles apart  
it's like living in the dark  
it's messing with my heart, yes it is

I need you to know  
I'll never let go of you and me  
And I need you to trust  
the love between us  
when times are so tough I need you to see

That I miss you, eh eh  
That I miss you, eh eh  
That I miss you, eh eh  
At the end of the day I need you to say  
I miss you

I'm sick of watching the clock  
you know I'm tired of waiting, waiting, waiting  
Cause all this time apart  
you know it's driving me crazy, crazy, crazy

(I need you to know, I'll never let go of you and me)

That I miss you, eh eh  
That I miss you, eh eh  
That I miss you, eh eh  
At the end of the day I need you to say  
I miss you  
I miss you
