

## Hymn

Kevin Ayers

Why do we waste our lives  
Why do we stay asleep  
So many confused words  
So many total disasters there are

We all try to change the world  
But change has to come from ourselves  
So much ignored advice  
So many drowned and wasting away

Everybody wants to be free  
But before this can be  
You've got to learn, learn how to see  
Just from what it is that you want to be free

Why do we waste our lives  
Why do we stay asleep  
So many confused words  
So many total disasters there are
