

That's What I Believe

Kevin Denney

There's nothing like a good home
Grown tomato
And kids these days still watch
Too much TV
Folks don't stick together like
They used to
I may be wrong but that's what I
Believe

Our government can sure throw
Away some money
But don't give enough to those
Who really need
No one's ever gonna love you like
Your mama
She told me so and that's what I
Believe

I'm convinced good friends make
Life worth living
And cornbread goes with almost
Anything
These things may not mean
Anything to anyone but me
But that's okay, 'cause that's
What I believe

There's nothing wrong with
Prayin in the classroom
There ought to be a law against
Plastic Christmas trees
True love only comes around
Once in a lifetime
Darling, you are mine and that's
What I believe

I'm convinced good friends make
Life worth living
And cornbread goes with almost
Anything
These things may not mean
Anything to anyone but me
But that's okay, 'cause that's
What I believe

These things may not mean a hill
Of beans
To anyone but me
But that's okay, 'cause that's
What I believe
