

# Broke Me Up

Kevin Drew

one, two, three

waiting hours and hours of fights  
see within our hearts  
we fall asleep

texture like the mormon cries (?)  
i'll only be in parks if you were me  
cause everybody broke me up  
everybody broke me up

this is how they used to live  
falling at the gods, take our sin

shouting back  
the moments tense  
i see (?) all turn to bricks

all we have is what you thought  
before you left that night  
you got the sound

take me through the makeshift house  
i don't know if you will ever leave

cause everybody broke me up  
everybody broke me up  
everybody broke me up  
everybody broke me up

and i can't dance cause i've been tied  
and i can't chant cause i already have my love

everybody broke me up  
everybody broke me up  
everybody broke me up  
everybody broke me up

let's dance  
I can't dance cause I don't know the time
