

It's Cool

Kevin Drew

In a land of a woman's dream
Can we lay down with the surface seems
Reach our hand down below her waist
And give thanks in blissful, all it takes

In the sky failed emergency
Does the car form the golden grief
And by skin that believes it's layer
To be loved is this only way

But it's cool
Yeah, it's cool

All the fingernails are fair
Will the cloud down and believe it still
And I hope to connect the knees
Will we try out before we bleed

But it's cool
Yeah, it's cool
It's cool
Yeah, it's cool

Got my exist inside of my mouth
I got my exist inside
I got my exist inside of my mouth
With my balls and my beams and my bits
I got my exist inside of my mouth
I got my exist inside
I got my exist inside of my mouth
With my balls and my beams and my bits

But it's cool
Yeah, it's cool
So cool
Yeah, it's cool
