

Bring It On

Kevin Fowler

I was born on the wrong side
Of the tracks, and all my life
I've had to kick and fight
When the world comes after me

I ain't one to start a fight
But I'll stand up for what's right
This sleeping dog, he'll bite
If you want to mess with me

Bring it on, hell, I ain't scared
I've been beat up, beat down
Walked on, pushed around
But I'm still standing here

Bring it on, see what you got
If you think you want a piece of me
Then just give it your best shot
Just bring it on

Yeah, bring it on

Mama said it don't make you weak
If you turn the other cheek
But I'll be damned if I'm whooped on
Anymore

Like a snake, better let me be
Oh, no don't tread on me
If you mess with this bull, well, you just might
Get the horns

Bring it on, hell, I ain't scared
I've been beat up, beat down
Walked on, pushed around
But I'm still standing here

Bring it on, see what you got
If you think you want a piece of me
Then just give it your best shot
Just bring it on

I've been knocked down once or twice
Got right back up again
When this world tries to get me down
I'll pop it right on the chin

Say, bring it on, hell, I ain't scared
I've been beat up, beat down
Walked on, pushed around
But I'm still standing here

Bring it on, see what you got
If you think you want a piece of me
Then give it your best shot

Bring it on, hell, I ain't scared

I've been beat up, beat down
Walked on, pushed around
But I'm still standing here

Bring it on, see what you got
If you think you want a piece of me
Then just give it your best shot
Just bring it on

I said, bring it on
