

Do That With You Gone

Kevin Fowler

If I wanted to be this lonely
I could do that by myself
If I wanted to waste a few years of my life
Girl, I wouldn't need your help

If I wanted to drink more than I should
Over how you done me wrong
Oh, baby, I could do that with you gone

And if I wanted to wonder who you're holding
Crying all night long
Watching you loving them in my mind
While I'm lying here alone
I could do that with you gone

If I wanted to hear one more lie
I could ask you when you're coming home
If I wanted to hurt more than I do
I could just keep hanging on

If I wanted to wake in the morning
With a stranger in my arms
Oh, baby, I could do that with you gone

And if I wanted to wonder who you're holding
Crying all night long
Watching you loving them in my mind
While I'm lying here alone
I could do that with you gone

And if I wanted to wonder who you're holding
Crying all night long
Watching you loving them in my mind
And if I wanted to wonder who you're holding
While I'm lying here alone

And if I wanted to know what hell feels like
Burning through my soul
Wanted to look like a fool for believing
That you ever loved me at all
I could do that with you gone
