

# Honky Tonk Junkie

Kevin Fowler

I used to always do it when I partied with my friends  
Once or twice a month you know, just every now and then  
I started needin more and more till I did it every day  
This some became a habit that I just can't seem to shake

Chorus:

I get the jonesy for Jones, I've got a hanker for Hank  
Yeah when I'm feelin down I need them around to help me through  
the pain  
Anytime that I wanna get stoned all I need is a sad, sad song  
It's the only fix for a honky tonk junkie like me

The first step to recovery isn't meant and that's your hook  
I've tried every twelve step program, I've read every self-  
help book  
But there aint no cure for an addict who aint ready to give it  
up  
No I can't put it down, I don't want some sound, I can just can  
it get enough

Chorus

Yeah it's the only fix for a honky tonk junkie like me
