

## Ol' What's Her Name

Kevin Fowler

[Chorus:]

You made me forget about ol' what's her name  
Well her memories are fadin' fast  
Oh you put her in the past  
Since you came through my door  
Well, she don't haunt me anymore  
Oh, you've saved me from the pain  
I forgot about ol' what's her name

It seems liked just the other day  
I was feelin' mighty lonely  
That old jezebel had broke me right in two  
Well, everyone I know  
Told me man, you'd better let her go  
She's gonna drive you to an early grave  
Oh honey..

[Chorus]

I can't recall her eyes, her face  
Not anything at all  
I draw a blank anytime I think about her anymore  
Many years have come and gone  
And the thoughts of her linger on  
Oh, I'm thinkin' about these days  
Oh honey.

[Chorus]

[Solo]
