

What's Your Point

Kevin Fowler

Old lady chewing on my ear, moanin and groanin I dont wanna hear
I know her mouth is makin words all I heard was blah blah blah
Same old story just another day a chore I didnt do a bill I didnt pay
We've been round and round so many times all I've gotta say is

What's your point tell me somethin I didn't know
Im a hard headed son of a gun thats just the way I roll
Old dogs never change dont waste your breath on me
Oh I've heard it all before ya whats your point

Alarm clocks a ringing im runnin late another story I'll have to fabricate
About how the traffics bad give me the keys
The boss man says this is my last chance tomorrow will be the same song and dance
Dont think that youll go to hell with your?

What's your point tell me somethin I didn't know
Im a hard headed son of a gun thats just the way I roll
Old dogs never change dont waste your breath on me
Oh I've heard it all before ya whats your point

People coming at me tellin me im wrong sayin I should change my ways
Things keep talking something to learn oh there gonna get?

What's your point tell me somethin I didn't know
Im a hard headed son of a gun thats just the way I roll
Old dogs never change dont waste your breath on me
Oh I've heard it all before ya whats your point
