

Around Me

Kevin Gates

While gambling the point we seen the money go
Touching me gently sayin she never wanna let it go

Pressure when we sexin goin ugghh, feel that dick,
Now we bout to break all of the rules sound off
I ain't had sex in a long while after this she'll think about me
for a long while

Fallin off I'm coughing no chiropractor in office need your back
crack and leg work, bed work I'm awesome
Parking garages, your office fuckin co-workers be talkin fuck'em
throwin dick in your guts this p90x wassup pants saggin blowin
these blunts all in public sayin you love
Now we bout to break all of the rules sound off ain't had sex in
a long while but after this she'll think about me for a long
time.

Conversations in the dark emotions get exposed sayin whatever
talked about no one should ever know
Body exotic like them models in the videos treating the dick
just like a stripper when she on the pole.

While gambling the point we seen the money go
Touching me gently sayin she never wanna let it go

Breakfast, brunch and checkin up linen made when mess it up
Mike Tyson fightin with a lotta bitin gotta lotta stripes I'm like
Mike The Tiger eat pussy up yea appetizer, looks appetizing
like excitement, she like to ride showed the pipe and she got on
top like a motorcycle, I'm a street nigga pull hair, in the projects
I'm good there fuck with'chu that's sayin something any other
bitch could have, suck toes tongue in between what we have
nothing come between, in and out of this pressure (sexin) smoke
detector (no smoke detected) jumpin hard and know she felt it,
makin faces I'm strokin heavy mya song waiting bumpin loud on
repeat, seem the sex is always greater hit the loud hit the le
an speakin with a soft tongue then know we all lost

Conversations in the dark emotions get exposed sayin whatever
talked about no one should ever know
Body exotic like them models in the videos treating the dick
just like a stripper when she on the pole.

While gambling the point we seen the money go
Touching me gently sayin she never wanna let it go
