Pray to God that don't nobody mess with us
Keep it strong in case anyone testing us
Right or wrong if it's diss You don't mess with it
When yo bitch over here I don't mess with her
No detective work I don't be questioning
Where she been
Trying to read all of her messages
I don't speak on no man that's irregular
Take her phone disconnecting her cellular
What you need that for undressing
What you need that for caressing her
Spreading her legs bout to pleasure her
Pulling her hair from the back
Go to pressing her
Trying to see who tap first made a bet with her
Relationship flaking, no eczema
She catching feelings she say we inseparable
