

# What's Understood

Kevin Gates

True story

Saturday a few missed calls while the Tv on but I'm not watching  
My brother reading car magazines really into cars like rim shopping  
Obama just been re-elected who gives a fuck when the coke dry  
Dope high getting less for shows gotta branch off into different markets  
This means being cautious all types of people in large assortments  
Erick on the phone and he calling me collect  
For his motion for discovery and he ain't even stressed  
Witness was victim of a random act of violence  
Nigga pulled up on the side of him and shot him in the neck  
I'm a street gang project legend trap house live like we sell concession  
GPS in foreign whips make It so I don't even need directions  
Found a line got activated pints of Actavis 600  
Fuck a tour bus I might pull up I'm my white cl 600  
With my front girl out of town who love me way before the money  
Gates

You niggas insecure

I don't even listen

What's understood need not be explained if you really live it  
Rolling round my hood they speaking like they rolling with me  
What's understood need not be explained if you really live it  
My baby mamas keep it the realer then my fucking niggas  
What's understood need not be explained if you really live it  
3 in the liter when I'm drinking that's just how I sip it  
What's understood need not be explained if you really live it

Lucas Brasi

If I'm dead broke would you lend somethin  
Thought id quit thuggin till my ribbs touchin  
Up town dezzie he a 6 somethin  
Like a pit up the four fifth fucking  
My bitch ugly ol fine ass  
Riding pass you know big stuntin  
You could fuck around and get big stunting  
Hand shakes fake lotta snakes here  
Lions, tigers, and apes here  
Rest in peace on a white tee  
Play crazy make me put your face here  
While you rest in peace I might be  
With you girlfriend or your friend girl  
Come visit her to smoke many L's  
Impressionable both simplistic ain't no telling what the hell it is  
Ain't no telling what the hell I did  
Say you fucked her  
The hell I did  
Spent some time in the cell I did  
Question asked what the hell I did  
Pray hard and talked to God  
And picked the Bible up off and on  
Fuck I don't give  
Brain up like switch  
Have trouble turning it off and on
