

All The Way Down

Kevin McCall

Haha
Yeah!
It's going down
Let me ask you this
Are you ready to go down?
Let's go!

Went to the club to do some dancing last night
Been there before I know they pack'em in time
One booty rubs against me try to make friends
I got a pretty good guess how this night ends

She's got that bubble butt and high high heels
She don't just laugh shawty squeels
And when she moves it's all revealed
She goes down down down down down down
All the way down

I like I like I like I like it like that
I like I like I like I like it like that
I like I like I like I like it like that
I like I like I like I like it like that

She had me press against the wall well soon
Let her do all the things she wanted to
We keep on dancing she don't mess a beat
She do she presses and rubs and then repeats

Got that bubble butt and high high heels
She don't just laugh shawty squeels
And when she moves it's all revealed.
She goes down down down down down down
All the way down

Down down she goes,
She goes down down she goes
She goes down down she goes
She goes down down she goes
All the way down

I took her home I couldn't take it no more,
Half my clothes on floor we hit the door,
She had the other half off in record turn
She's off the hook the chain I lost my mind

She's got that bubble butt and high high heels
She don't just laugh shawty squeels
And when she moves it's all revealed.
She goes down down down down down down
All the way down

Down down she goes,
She goes down down she goes
She goes down down she goes
She goes down down she goes
All the way down

Move shawty, shawty, shawty
Move shawty, move shawty
Move shawty, shawty, shawty
Move shawty, move shawty
Move shawty, shawty, shawty
Move shawty, shawty, shawty
Move shawty, move shawty
Move shawty, shawty, shawty
Move shawty, shawty, shawty
Move shawty, move shawty
Move shawty, shawty, shawty

Yeah! I like that
Now that's how you take it down
That's how you take it all the way down

I like I like I like I like it like that
I like I like I like I like it like that
I like I like I like I like it like that
I like I like I like I like it like that

Down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
All the way down

Down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
She goes down down she goes
I like I like I like I like it like that
All the way down
