

Hands On

Kevin McCall

Hey lil mama I'm sorry to keep you waiting,
I know that my return is highly anticipated,
All I got is two things on my mind,
That's making love and making love, all night.
I don't care how much time it takes, to make you scream my name,
Take me, daily (shhh)
You don't got to tell me twice, no

See now your heart is racing, cause you're anticipating,
What I'mma do when I'll get you in my hands
You gon' love every minute, minute that I'm up in it
Girl I hope you ready for it
Wait till I got my hands on your body, body, body, body
Wait till I got my hands on your body, body, body, body
You gon' put your hands up when I'll find the spot you like (baby), a
ll night long
So wait till I (till I) put my hands on your body

You on me, me on you
Either way it go, we can do
Got the magic hands, make you feel brand new
Like a virgin again, again
But I think it's something I should let you know
When I'll give it to you you gon' want it more and more
I just say take me, daily (shhh)
You don't got to tell me twice, no

See now your heart is racing, cause you're anticipating,
What imma do when I'll get you in my hands
You gon' love every minute, minute that I'm up in it
Girl I hope you ready for it
Wait till I got my hands on your body, body, body, body
Wait till I got my hands on your body, body, body, body
You gon' put your hands up when I'll find the spot you like (baby), a
ll night long
So wait till I (till I) put my hands on your body

You ain't seen nothing till I (my hands on your body, shawty)
Girl you gon' love it when I (my hands on your body, shawty)
So why you still got you clothes on, make'em disappeared girl
I'mma put it on you, bring your body here girl
Yeah, yeah, yeah, yeah

Wait till I got my hands on your body, body, body, body
Wait till I got my hands on your body, body, body, body
You gon' put your hands up when I'll find the spot you like (baby), a
ll night long
So wait till I (till I) put my hands on your body
