

High

Kevin McCall

Everyday admire baby, everyday admire baby
I think it's going down, down, down, down, oh
Think I want you now, now, now, now, now, whoa
Booty round, swisher brown
Girl you wanna smoke for a day
I'm addicted, so let me hit that,
Coming through the ghetto, take

[Chorus]

Girl I'ma take you high, high, high
Higher than you've ever been
Addicted by the full ride, high, high
Higher than you've ever been
High, just wanna get, get you right
When I tell you jump, you say how high, high
Higher than you've ever been

Put your pretty lips on that and don't be shy
I may get it more, in a couple times
Promise I'ma blow your mind
Break it down, spread it out
And roll another one for later, later
One day ...got me uzzy baby
Girl you know that booty looking crazy

[Chorus]

Girl I'ma take you high, high, high
Higher than you've ever been
Addicted by the full ride, high, high
Higher than you've ever been
High, just wanna get, get you right
When I tell you jump, you say how high, high
Higher than you've ever been.
