Don't Give Up

Kevin Rudolf

I've been high, I've been low
Traveled down every single road
I felt love, I felt pain
But it's all just a part of the game
And it's people out there get you down
Cause they're crying the blues, yeah
Just cause they never done this, it's got nothing to do with yo
u

So don't give up, don't look down
Cause your time is gonna come around
Don't look back you've come to far
Baby you were born to be a star, whoa, whoa, whoa, yeah

I've been down, I've had faith,
But I believe every day
I've been right, I've been wrong
But you'll remember me when I'm gone
And it's people out there, they just doubt what they can't see,
 yeah
 Cause there's a shining star that baby you we're born to be

So don't give up, don't look down
Cause your time is gonna come around
Don't look back you've come to far
Baby you were born to be a star, whoa, whoa, whoa, yeah X2

Don't give up, don't look down
Cause your time is gonna come around
Don't look back you've come to far
Baby you were born to be a star, whoa, whoa, whoa, yeah
Whoa, whoa, whoa,
Don't give up, don't look down
Cause your time is gonna come around, yeah
Cause your time is gonna come around, yeah.
