

# Great Escape

Kevin Rudolf

One night when I was asleep,  
I had a dream I could fly,  
I felt the cold on my skin then I opened my eyes,  
So I jumped out of bed went down the fire escape,  
Now i'm layed out on the street I wasn't running away,  
From something I could control it was inside of me,  
I didn't know where to go but I decided to leave,  
I still remember that night i've never been the same,  
Still wonder if I can fly, was it just a dream?

I wasn't happy for so long so many times I walked away,  
Think I was searching for something  
Not knowing what I had to face,  
Until I found out the reason  
Thats when I made my great escape  
But now it's to late to say, I'm sorry.

Turn around (15x)

One night when I couldn't sleep,  
I heard a knock at the door,  
She pulled her head on me slow then she opened my heart,  
I asked myself is this real i've never felt this way,  
She said I need to escape I said I know a place,  
So she layed down on my bed I said confide to me,  
She looked deep into my eyes and she invited me,  
She must have left me asleep she never said goodbye  
Her angels took her away I guess now she can fly.

I wasn't happy for so long so many times I walked away,  
Think I was searching for something  
Not knowing what I had to face,  
Until I found out the reason  
Thats when I made my great escape  
But now it's to late to say, I'm sorry.

Turn around (15x)

But I wasn't happy for so long so many times I walked away,  
I think I was searching for something  
Not knowing what I had to face,  
Until I found out the reason  
Thats when I made my great escape  
But now it's to late to say, I'm sorry.

And this is my song  
These are my words  
This is my story,  
This is my song  
These are my words.

And this is my song  
And this is my story  
These are my words.

And this is my song  
These are my words

This is my story,  
And this is my song  
These are my words.
