

# She Can Get It

Kevin Rudolf

Yeah, she don't stop, she workin' it all about  
She moves it around the clock  
And she can get it, she can get it  
Don't quit, the way that she moves it  
She's makin' me lose my grip  
And she can get it, she can get it

She knows just what she likes  
No matter what the price  
She got me hurtin' bad, perfect tan, workin' out  
Looks like a million cash, well, let me fill your glass  
And there was money in the bed

Yeah, she don't stop, she workin' it all about  
She moves it around the clock  
And she can get it, she can get it  
Don't quit, the way that she moves it  
She's makin' me lose my grip  
And she can get it, she can get it

She puts in overtime and on those slow grinds  
She gets a hustle of lupatans, buckle up  
But I got that attitude, she got the right moves  
Let's put the workin' baby, up and down the avenue

Yeah, she don't stop, she workin' it all about  
She moves it around the clock  
And she can get it, she can get it  
Don't quit, the way that she moves it  
She's makin' me lose my grip  
And she can get it

Turn around and cut you in a blink of an eye  
Yeah, you know she always get what she wants  
And yeah, it's so amazin' how she's puttin' me down  
Is this love? Is this love? Is this love?

Yeah, she don't stop, she workin' it all about  
She moves it around the clock  
And she can get it, she can get it  
Don't quit, the way that she moves it  
She's makin' me lose my grip  
And she can get it, she can get it

Yeah, she don't stop, she workin' it all about  
She moves it around the clock  
And she can get it, she can get it  
Don't quit, the way that she moves it  
She's makin' me lose my grip  
And she can get it, she can get it

Yeah, she don't stop, just don't stop
