

# What Do U Got

Kevin Rudolf

Don't try to be someone you're not  
It always comes down to people who blow up spots  
E-Everyone's the same when the music stops  
So tell me what do you got that I don't I don't got.

I can tell by the look in your eye  
That you're trying to find somebody to change your life  
I don't know who you're trying to be  
But it sounds a lot of better when you're lying to me.

In the world when nothing's free  
How do you live so comfortably  
You should really love yourself  
Cause in the end you won't have no one else

Don't try to be someone you're not  
It always comes down to people who blow up spots  
E-Everyone's the same when the music stops  
So tell me what do you got that I don't got.

What do you got that I don't got.  
Tell me what do you got that I don't got

Did you forget where you came from?  
We both know your story so don't play dumb  
I don't know who you think you are  
But i promise that it's never gonna get you far

You know in life there's no guarantees  
But you fall through the crack so easily  
You should really trust yourself  
Cause in the end you won't have nothing else

Don't try to be someone you're not  
It always comes down to people who blow up spots  
E-Everyone's the same when the music stops  
So tell me what do you got that I don't I got.

What do you got that I don't got.  
Tell me what do you got that I don't got.

What do you got that I don't I got.  
Tell me what do you got that I don't I don't got.

You can feel it gonna make you you'll do anything it takes  
Now it's my turn to persuade you, believe me when I say

Don't try to be someone you're not  
It always comes down to people who blow up spots  
E-Everyone's the same when the music stops  
So tell me what do you got that I don't I don't got.

What do you got that I don't got.  
Tell me what do you got that I don't got  
What do you got that I don't got.  
Tell me what do you got that I don't I don't got.
