

My Love Is

Kevin Sharp

How deep is a river
Never know till you jump in
How strong is desire
Girl it's the original sin
How wild is a fire
How long is forever
How far can two hearts go

My love is deeper than the ocean, stronger than my pride
My love is way beyond your wildest dreams, too long for one lifetime
I love you way too much to keep it all inside
So I just want for you to
How deep, how strong, how wild, how long
How so far gone my love is

How hot is a fire
You never know till you touch the flame
How true is a promise
Somethings that you can't explain
How much do I love you
How real is a kiss
Ask me again and I'll tell you this

My love is hotter than the dessert on the fourth of July
My love is true and girl I promise you, that's no lie
My love is bigger than that blue Montana sky
So I just want for you to know
How deep, how strong, how wild, how long
How so far gone my love is

My love is deeper than the ocean, stronger than my pride
My love is way beyond your wildest dreams, too long for one lifetime
I love you way too much to keep it all inside
So I just want for you to

My love is hotter than the dessert on the fourth of July
My love is true and girl I promise you, that's no lie
My love is bigger than that blue Montana sky
So I just want for you to know
I just want for you to know
I just want for you to know
How deep, how strong, how wild, how long
How so far gone my love is
How deep, how strong, how wild, how long
How so far gone my love is
