

There's Only You

Kevin Sharp

In every life they say
One perfect love comes your way
I know for my heart that's true
There's only you

When sorrow brings me pain
If teardrops fall like rain
Who else can I turn to
There's only you

Every night I thank the Lord above
For giving you to me
All my life I'll give you all my love
True and faithfully

So darlin' say you;`ll stay
Don;`t take your love away
I;`ll never find someone new
There's only you
