

Anyway

Kevon Edmonds

Is that anyway for you to treat somebody who loves you
Who thinks the world of you
You know you can't treat me anyway
Is that anyway for you to treat somebody who needs you
Goin' out their way to please you
I must be crazy, but anyway

You know the buttons to push
You know the words to say
You got the smile to use to get your own way
I'm getting paid you got it made in the shade
And every day is like a holiday

You know my weakness you know I can't say no
You know my no means yes and my stop means go
You're takin' me for a ride
And this is how it looks from my side
Peep the game

Is that anyway for you to treat somebody who loves you
Who thinks the world of you
You know you can't treat me anyway
Is that anyway for you to treat somebody who needs you
Goin' out their way to please you
I must be crazy, but anyway

I catch you our flirting with the boys in the hood
You turn it ?round make me feel I misunderstood
Every time I'm the last to know
Here's your academy award for puttin' on the greatest show
Momma told me ?bout girls like you
And all trouble they can put you through
I give you love but you make me pay
When you turn around and give it all away

Is that anyway for you to treat somebody who loves you
Who thinks the world of you
You know you can't treat me anyway
Is that anyway for you to treat somebody who needs you
Goin' out their way to please you
I must be crazy, but anyway

Girl you make me say
Baby baby baby baby
I can't believe the games you play just to get your own way
Baby baby baby baby
All along you set me up waitin' for the perfect payday
Baby baby baby baby
Its coming back to you and you will be mortified, tore up inside
Baby baby baby baby
And me and my new shorty will be rollin' rollin' rollin' rollin'
