

# Move It Slow

Kevon Edmonds

I'm thinking 'bout your body baby  
want to love you in so many ways  
The way you move it all around  
Makes me want to love you down  
Contemplating making love to you  
Scented candles and some bubbles too  
Come and have a private dance with me  
So I can stare at your body baby

You can have my money and  
You can have my car keys baby  
Max out all my credit cards  
Till you look just like a star  
I'll pay all your bills  
Tell me baby what's the deal  
Why I'm so into you?

Move it slow  
Make sweet lovin' to me  
Let it flow  
Ooh you're looking so sexy to me  
Lose control  
You don't know what you're doing to me  
With my eyes and my mind  
I forget about it

We're sitting here sippin' on Don Perrion  
Watching you it really turns me on  
And that negligee that you're wearing is tight  
When you take it off, all I can say is my, my, my  
From your head down to your toes, sexy  
Such a beautiful sight to see  
One look in your eyes and I'm hypnotized  
The cutest little thing I've ever seen, you can...

There's no greater fantasy  
Than the one that I share with you  
You really got a hold on me  
I'm taken by the way that you move  
I love what I see  
That sexy, sweet body  
I'll take you away from here  
Make us feel reality, oh

Bounce for me, bounce for me  
Move it all around for me  
Shake it baby, shake it baby  
Up and down  
Move it to the left  
Move it to the right  
Work the body, work the body baby, baby  
Bounce for me, bounce for me  
Move it all around for me  
Shake it baby, shake it baby  
Up and down  
Move it to the left  
Now move it to the right

Work the body baby, work the body baby, oh
