When I'm With You

Kevon Edmonds

Back in the day
I used to treat my lady any kind of way
I always ended up alone
But now I changed
'Cause you showed me how to love
And I appreciate all your tenderness

Without you
Nothing really matters in this world
I wish time would stand still
When I'm with you
Everything revolves around you girl
I wouldn't last a day

Without you
Nothing really matters in this world
I wish time would stand still
When I'm with you
Everything revolves around you girl
I wouldn't last a day

I gotta say
Spending time with you is like a holiday
And it makes you feel so good
Day by day
My love for thee gets stronger
And I appreciate your sweet tenderness

You changed me
So in love unconditionally
Cause of you I'm a better man
Never leave my side
Cause I'll go crazy
Out of my mind

Without you
Nothing really matters in this world
I wish time would stand still
When I'm with you
Everything revolves around you girl
I wouldn't last a day

You changed me
So in love unconditionally
Cause of you I'm a better man
Never leave my side
Cause I'll go crazy
Out of my mind
