

(I Just Want It) To Be Over

Keyshia Cole

Over and Over

LaLaLaLaLaLaLaLaLaLa (Alicia Keys)

LaLaLaLaLaLaLaLaLaLa (Keyshia Cole)

It's the way it is

Baby I remember

a time when we were so secure but

Now it's like December

when you say that I'm so insecure and

I gotta get away

cause' your making me weak

It's keeping me trapped (keeping me trapped)

I gotta be a fool

sitting here tryna get that old thing back (thing back oh)

Oh

You use to keep your word

was one who always did what you said

You use to speak to me so sweet

with something caring to say

Oh, you don't even try no more

Oh, you don't even care no more

I don't wanna love you

don't wanna need you

just wanna leave you (I swear)

I just want it to be over (I just want it to be over)

I just want it to be over (I just want it to be over)

It's like I hate to love ya

a charade we play time after time (time after time)

It's like ya love to see me

confused and a mess I'm losing my mind (I'm losing my mind)

I gotta get away

cause' your making me weak

It's keeping me trapped (keeping me trapped)

I gotta be a fool

sitting here tryna get that old thing back (thing back oh)

Oh, Oh, Oh, Oh

You use to keep your word

was one who always did what you said

You use to speak to me so sweet

with something caring to say

Oh, you don't even try no more

Oh, why you don't care no more

I don't wanna love you

don't wanna need you

just wanna leave you (I swear)

I just want it to be over (I just want it to be over)

I just want it to be over (I just want it to be over)

Hey

LaLaLaLaLaLaLaLaLaLa (La, La, La, La)

LaLaLaLaLaLaLaLaLaLa (No I don't wanna here it no more)

LaLaLaLaLaLaLaLaLaLa (All the lies, Oh)

LaLaLaLaLaLaLaLaLa (You, You, You use to)

You use to keep your word (hey)
was one who always did what you said (baby you cared)
You use to speak to me so sweet (so sweet)
with something caring to say (oh)
Oh, you don't even try no more
Oh, why you don't care no more

I don't (I don't) wanna love you
don't wanna (no) need you
just wanna (I wanna) leave you (I swear)
I just want it to be over (I just want it to be over)
I just want it to be over (Hey)

I don't (Oh) wanna love you
don't wanna need you
just wanna, don't wanna leave you (I swear)
I just want it to be over (I just want it to be over)
I just want it to be over (Can it be over?)

Over and Over!
