

## Next Move

Keyshia Cole

We keep on fighting, going back and forth  
Who's the first to call? Who's the first to fall in love?  
We hide emotions, Who's keeping score?  
And you don't want the ball in my court, I don't want the ball in yours

Yes, we're hiding everything we feel  
Something's there, we both know the deal yea  
I know you've been thinking 'bout me just as much as I've been thinking 'bout you  
My girls say fight it, let him come to you

Now I'm waiting (Now I'm waiting)  
Anticipating (Anticipating)  
Who's gonna get this  
Can you tell me who's gonna make the next move?  
The next move, the next move  
Who's gonna make the next move, the next move?  
Is it gonna be me or is it gonna be you

I hate the fact, we never aid those words  
So I can even trip when you wanna act brand new  
But I still get mad when you walk up the room  
But the truth is: I'm not the only one loving you

Yes, we're hiding everything we feel  
Cause we both care and we both know the deal  
I know he's thinking 'bout me just like I've been thinking bout him  
But we keep on fighting, who's gonna win?

Now I'm waiting (Now I'm waiting)  
Anticipating (Anticipating)  
Who's gonna get this  
Can you tell me who's gonna make the next move?  
The next move, the next move  
Who's gonna make the next move, the next move?  
Is it gonna be me or is it gonna be you

I have to decide  
Will I be just like the next one?  
When I know that I'm the best one for you  
Can't you see that I, I just want you for my man  
Cause I doubt that she can love you like I can  
See, you're all I want  
So I don't understand why you don't wanna only be with me  
Baby, baby, why don't you wanna be with me?

Who's gonna make the next move?  
The next move, the next move  
Who's gonna make the next move?  
The next move, the next move  
Who's gonna make the next move?  
The next move, the next move  
Who's gonna make the next move?  
The next move, the next move  
(Gonna be you)

Why don't you wanna be with me?

You're all I want
