## **Next Move**

**Keyshia Cole** 

We keep on fighting, going back and forth Who's the first to call? Who's the first to fall in love? We hide emotions, Who's keeping score? And you don't want the ball in my court, I don't want the ball in yours

Yes, we're hiding everything we feel Something's there, we both know the deal yea I know you've been thinking 'bout me just as much as I've been thinking 'bou t you My girls say fight it, let him come to you

Now I'm waiting (Now I'm waiting) Anticipating (Anticipating) Who's gonna get this Can you tell me who's gonna make the next move? The next move, the next move Who's gonna make the next move, the next move? Is it gonna be me or is it gonna be you

I hate the fact, we never aid those words So I can even trip when you wanna act brand new But I still get mad when you walk up the room But the truth is: I'm not the only one loving you

Yes, we're hiding everything we feel Cause we both care and we both know the deal I know he's thinking 'bout me just like I've been thinking bout him But we keep on fighting, who's gonna win?

Now I'm waiting (Now I'm waiting) Anticipating (Anticipating) Who's gonna get this Can you tell me who's gonna make the next move? The next move, the next move Who's gonna make the next move, the next move? Is it gonna be me or is it gonna be you

I have to decide Will I be just like the next one? When I know that I'm the best one for you Can't you see that I, I just want you for my man Cause I doubt that she can love you like I can See, you're all I want So I don't understand why you don't wanna only be with me Baby, baby, why don't you wanna be with me?

Who's gonna make the next move? The next move, the next move Who's gonna make the next move? The next move, the next move? Who's gonna make the next move? The next move, the next move? The next move, the next move? The next move, the next move?

Why don't you wanna be with me?

You're all I want
