

# This Is Us

Keyshia Cole

I'm like a sunday morning, you're like Friday night  
And when we kiss, the perfect weekend -no rain in sight  
When I'm feeling incomplete, you're my missing piece  
And when you need your breathe taken away I'll be your thief

From the start to the end  
We don't need to pretend  
That we're perfect all the time  
'cause we know what we have  
Through the good the bad  
It's a strength that you can't deny...

I don't need to find a million reasons why  
This is us, this is us, this is how we love  
Some ways we're different  
But together we're so right  
This is us, this is us  
And this is how we love

And even if we fall apart, we'll never feel alone  
Just like the moon starts rising, our hearts bring us home  
We can always find each other like the northern star  
Doesn't matter where we are, I'm looking, going far

From the start to the end  
We don't need to pretend  
That we're perfect all the time  
'cause we know what we have  
Through the good the bad  
It's a strength that you can't deny...

I don't need to find a million reasons why  
This is us, this is us, this is how we love  
Some ways we're different  
But together we're so right  
This is us, this is us  
And that's the way we love

We don't always see eye to eye  
You must see a million colours  
I just see it black and white  
(Ain't no way we could get much higher)  
'cause when we touch it feels like fire  
We both know how good this feels  
Yes we do... baby... because...

This is you  
This is me  
This is us

I don't need to find a million reasons why  
This is us, this is us, this is how we love  
Some ways we're different  
But together we're so right  
This is us, this is us  
And this is how we love
