

# Woman to Woman

Keyshia Cole

Yeah, what's up?  
So, I know you know this dude,  
So I need you to talk to me and just tell me  
What's going on? You know what I'm saying?  
Woman to woman, I think it's only fair  
I already know, so just let me know (you know what I'm saying) what you know  
?

It's going around, y'all been doing your thing  
And no matter what I say, it's not gonna just change things  
See I wanna know, no one wants to be cheated on  
Can you just keep it real with me, woman to woman?

You got me (got me like the feds), checking on the evidence  
Checking out where you've been  
What you've been doing with her  
So can we keep it real?  
I wanna know everything  
So girl tell me everything  
I ain't really tripping  
But I gotta know what's going on?

Girl I've been in this here long enough  
See I've been doing this here long enough  
So I'mma tell you where I stand,  
I gave my heart to this man, yeah  
He never mentioned he was in a situation,  
He told me I was his one and only, yeah, yeah  
See, we gon' have to sit down,  
And figure this thing out, yeah

Yeah you gon' have to tell me  
I don't know why he wanna play me  
And leave me in the blind,  
I thought we knew  
What we wanted to do

He got me (got me like the feds), checking on the evidence (got me yeah yeah  
)  
Checking out where you've been  
Come on  
What you've been doing with her?  
So can we keep it real?  
I wanna know everything  
So girl tell me everything  
I ain't really tripping  
But I gotta know what's going on?

We had a home together  
He said it would last forever  
And no matter what, no one would ever break us up  
No-oh

And he got his clothes over here (oh really)  
We've been building this life for years (say word)  
Been through ups and downs,  
He even stayed at his mamma's house

Even talked about having kids

Got me like the feds, checking on the evidence (he got me yeah yeah)

Checking out where you've been

Come on

What you've been doing with her?

So can we keep it real?

I wanna know everything

So girl tell me everything (oh, tell me everything yeah yeah)

I ain't really tripping (no, no)

But I gotta know...

See woman to woman, I know he ain't right

Looked me in the eyes and lied a thousand times

I can't believe he did this to me

I gave him my heart, so what's it gonna be?

So what'cha, so what'cha, so what'cha gonna do?

So what'cha, so what'cha, so what'cha gonna do?

So what'cha, so what'cha, so what'cha gonna do?
