

Wonderland

Keyshia Cole

Hear that you said you just need a real woman
Baby, here I come
I hear you baby
Had some mishaps and a couple setbacks
Baby, here I am
I hear you baby

Open up your door
Boy, I really need to come in
I need it all, won't be no frontin'
I hear your call, I'm bringing my loving yeah
Gotta have you in my life

I'll be losing my mind every time you take me to your wonderland
When I look into your eyes I get lost in your wonderland
When you going away
I'm dreaming about you baby
Got me losing my mind every time you take me to your wonderland

When you said that, uh I got that run back
You was talking good, I see you baby
Who would've thought that you was stating true facts
Now you got me hooked, you did that baby

Open up your door
Girl, I really wanna come in
I need it all, won't be no frontin'
I hear your call, I'm bringing the loving
Gotta have you in my life

I'll be losing my mind every time you take me to your wonderland
When I look into your eyes I get lost in your wonderland
When you going away
I'm dreaming about you baby
Got me losing my mind every time you take me to your wonderland

When I can't find the words 'cause it feels too good
I say uh baby (uh baby)
When your love is too much and I don't want to rush
I say uh baby

When I look into your eyes and you take me for a ride
And you let me get inside of your heart I just can't lie I say
Uh uh uh uh uh uh

I'll be losing my mind every time you take me to your wonderland (every time
you take me there)
When I look into your eyes I get lost in your wonderland
(Baby when you're gone)
When you going away
I'm dreaming about you baby (I can't take it no)
Got me losing my mind every time you take me to your wonderland

How do you know how you make me feel baby?
