## The Wisdom Behind The Smile (ca\$h)

## **Keziah Jones**

I was standing On one of the Seine bridges Saying goodbye to Lydia Tracy When the news broke That we had been used + abused Since money began To some its kinda rude To refuse The bootleg version Of an act of love Blufunk individuals Can change that phrase to bribery Change that phrase to bribery Change that phrase Because the wisdom Behind the smile Is called "Cash" I know that money lies to me It's freedom on paper But nobody's free You know it's gonna kill for me To see so many people diggin "The bootleg version" Money bleeds Greed is a need Only to those Only to those Only to those you can't afford it They're diggin the bootleg version
