Khoiba

Your tear is up to lake
Together we need a break
...on time
And speed as you can hide
To hide before you fright
I don't mind...
I'm keeping up with you
But there is more than 2
Of us
Can't you see it on my face
I'm still ready for the race
Or fight

Kick my mind
Smack my blood
Life is dead
March to god
I always did
Save your soul
Don't let it throw
Over floar

Don't stop! Don't stop like this!
Don't stop like this!
Cause you are not the same like me!!!

Kick my mind till i'm blind
The sixth of all is to fall
I always did
To save his soul
Don't let it be thrown
Over float

Won't be inlaid with lovely phrases
Morning shows you up
At least...
