One Of Us Must Hang

Careful with what you're wishing for They'll lead you down below Careful with what you're thinking of Don't want to see you at the end of a rope

Take it one of us must hang One of us must go Stand-off is rigged, this trap must close Take it one of us must hang One of us must go Ears are ringing, alarm come near

Careful with what you're speaking of For how long can you hold your breath? Careful with what you're dreaming of They'll hunt you down Collapsing walls

Take it one of us must hang One of us must go Stand-off is rigged, this trap must close Take it one of us must hang One of us must go Ears are ringing, alarm come near
