

Everyday loosing faith  
Cold wind brings emptiness  
Burning eyes cast into stone  
Engulfed in darkness  
Hell is now, we are lost  
I finally claim my throne  
2000 years alone  
Suffocate under this pile of shit  
Called society  
A bitter taste follows me everywhere  
Disease is all I see  
I refuse to be the next sacrifice  
My soul confined to a fortress of ice  
I've tried to grasp  
At something real  
Fighting the hands of time  
Burned, but I've learned  
One day your kingdom will be mine  
I'll rise while you sleep  
So many ways I can hurt you  
Your weakness I despise  
Open the gates to the fiend that lies  
Within you  
One more time I rise  
Thrown in this world  
I've never asked for it  
Better to reign in hell  
Than serve in heaven  
Open the gates to the fiend that lies  
Within you  
Unleash the beast inside
