

# Mad Solar

Kid Cudi

I guess I'm loony, I guess I'm on one  
Guess I'm just a star of my movie  
They say I'm the chosen and so it goes  
I'm supposed to live and grow old and die alone  
Talking to myself in the mirror  
Didn't really know one  
Can we talk just loony to loony?

How strange the notion, you don't really know no one  
And what if I told you, you no longer know me  
You better keep goin', keep it rollin' now  
Ain't no thing you don't really need me

The pressure is growing  
Hard times they mold ya  
Into someone way colder  
Let the world see how you win  
No matter how you seem to them

Fuck 'em, fuck 'em, fuck 'em, fuck 'em

And people think I'm mad or on one  
Won't you tell them I'm mad solar  
All the things that bother me  
Ain't no other way I can be  
And people think I'm mad or on one  
So won't you tell them I'm mad solar

I guess I'm looney, I guess I'm on one  
Guess I gotta finish my movie  
See my heart has been swollen, it's healin' slow  
Hope I don't live to grow old, no one at home  
Starin' at myself in the mirror, they wanna know one  
Wanna find about the real me

Soon moments reveal you  
Especially friends who were never good friends  
But wanna act like they know me  
You better keep going, keep strollin'  
It's so crazy how you think you can play me

Show them pussies you're growin'  
Hard times they mold ya  
Tell the haters "I told ya"  
Let the world see how you win  
No matter how you seem to them

Fuck 'em, fuck 'em, fuck 'em, fuck 'em

And people think I'm mad or on one  
Won't you tell them I'm mad solar  
All the things that bother me  
Ain't no other way I can be  
And people think I'm mad or on one  
So won't you tell them I'm mad solar
