

# I Just Want It All

Kid Ink

I-I-I just want it all  
Money and the cars right  
I don't wear a tie but they say I live a boss life  
I-I just want it all  
Pool and a bad bitch, way back then  
Thought that we would never have this  
I just want it all all all all all

I just want it all, high above the law  
Kill 'em so cool, you can call me Mr. Frost  
Come and find me where the money is, ever feeling lost?  
I just wanna ball so sick of playing toss  
I remember back then I had a dream since then  
I've been sleep walking all-all-all the ups and downs I was sea-sawing  
Only made me strong like steroids  
Game time I just served these niggas like a bell boy  
Tell them that it's over (over)  
Finito  
I can make it bump bump bump like a mosquito  
It's just all in my estilo  
And my pockets are the only thing bigger than my ego.

I-I-I just want it all  
Money and the cars right  
I don't wear a tie but they say I live a boss life  
I-I just want it all  
Pool and a bad bitch, way back then  
Thought that we would never have this  
I just want it all all all all all

I don't wanna stall, I would never leave means  
I don't wanna fall, no matter the cost  
I-I-I'm all in till the coffin  
Kush coughing nicer than your conscience  
Finally everywhere u wanna be moving high velocity  
Driving irresponsibly but I think u should come  
And take a ride see the world through my eyes  
Everyday is a surprise  
So I party like my birthday  
LA is my birthplace  
First place, west side loud as a I wanna be  
There's sleeping on me, now they are in the fetal  
Yeah I'm nito everything's in tuxedo.

I-I-I just want it all  
Money and the cars right  
I don't wear a tie but they say I live a boss life  
I-I just want it all  
Pool and a a bad bitch, way back then  
Thought that we would never have this  
I just want it all all all all all (2x)
