

# Do It For You

Kid Rock

Been stiin alone  
Thinking about the past  
Another lonley night  
Another empty glass  
This path im walking  
Always seems to lead no where  
I wonder how much you think of me  
How we used to laugh  
How we used to be  
It seems like freedom  
Has never had a man so scared

Times might change  
Love it comes and goes  
How i wish i could have shown you  
How deep for you my love goes  
And i know this might seem crazy  
I would end my life for you  
You know i dont want to  
But id do it for you  
Hey id do it for you  
I wonder how much you think of me  
It hurts to think the past  
Is all that you can see  
Now it seems like freedom  
Is better then the love we shared

[repeat chorus]

Listen to me  
I wonder how long it takes to see  
Theres nothing more i want  
Then you here with me  
Freedoms been knockin  
But i refuse to let her in

Times may change  
Love it comes and goes  
How i wish i would have shown you  
How deep for you my love goes  
And i know this might sound crazy  
I would end my life for you  
You know i want to  
Come back home and care for you  
Baby id do anything for you  
Id do anything for you
