

# Rock N Roll Pain Train

Kid Rock

15 years on this lonely road

I paid my own way I carried my own load  
I never asked too much from no one  
I was much too proud  
All I ever wanted Was to play music for A sold out crowd

Bitches, money fame They say I had it all  
6 foot 1 I walked around like I was 10 feet tall  
Did you see me shine  
Where the hell where you now Detroit city back in 99  
Stoned out of my mind

On that rock-n-roll pain train  
I had to slow things down  
I live out in the woods now  
It helps me keep my feet on The ground  
Lifes been good to me so far  
Hope its been kind to you  
Stand strong in the storms of life  
The sun will always shine on you

Now Ive been rollin on love n lust  
I ride around on this million dollar bus  
But this is just a bus man  
I cant sleep at night  
Man I miss my babies  
And Id really like to fuck my wife  
But she aint there tonight

Ive seen this train wreck  
Time and time again  
I felt its pain  
Ive seen it take my friends  
Youve got to stop and take a look man  
Or life will pass you by  
Get your guitar and a good song  
Thats all you really need to ride
