

Rock N Roll Pain Train

Kid Rock

15 years on this lonely road

I paid my own way I carried my own load
I never asked too much from no one
I was much too proud
All I ever wanted Was to play music for A sold out crowd

Bitches, money fame They say I had it all
6 foot 1 I walked around like I was 10 feet tall
Did you see me shine
Where the hell where you now Detroit city back in 99
Stoned out of my mind

On that rock-n-roll pain train
I had to slow things down
I live out in the woods now
It helps me keep my feet on The ground
Lifes been good to me so far
Hope its been kind to you
Stand strong in the storms of life
The sun will always shine on you

Now Ive been rollin on love n lust
I ride around on this million dollar bus
But this is just a bus man
I cant sleep at night
Man I miss my babies
And Id really like to fuck my wife
But she aint there tonight

Ive seen this train wreck
Time and time again
I felt its pain
Ive seen it take my friends
Youve got to stop and take a look man
Or life will pass you by
Get your guitar and a good song
Thats all you really need to ride
