

# Runaways

## Kids in Glass Houses

You can call us the runaways,  
We'll be gone before you wake,  
Let all the stars beneath you shine

People call us the runaways,  
And we're gone before you wake (before you wake!)  
Let all the stars beneath you shine

And all I wanna see is a world,  
is a world that belongs to me,  
And all I wanna be is your world, is your world,

Another runaway,  
Another runaway,  
Another runaway ay ay ay , another runaway.

You can call us the runaways,  
We'll be gone before too long,  
Let all the stars beneath ignite

But I would never leave you,  
I could never leave you,  
I'm lying when I'm on my back.  
But I would never leave you,  
I could not deceive you,  
I'm lying when I'm on my back.

And all I wanna see is a world,  
is a world that belongs to me,  
And all I wanna be is your world, is your world,

Another runaway,  
Another runaway,  
Another runaway ay ay ay ay

You can't stop us now 'cause we keep on running,  
Stop us now 'cause we keep on running  
Stop us now 'cause we keep on running on.  
You can't stop us now 'cause we keep on running  
Stop us now 'cause we keep on running  
Stop us now 'cause we keep on running on.

And all I wanna see is a world,  
is a world that belongs to me,  
And all I wanna be is your world, is your world,

Another runaway,  
Another runaway,  
Another runaway ay ay ay ay

You can't stop us now 'cause we keep on running  
Stop us now 'cause we keep on running  
Stop us now 'cause we keep on running on and on and on and on  
You can't stop us now 'cause we keep on running  
Stop us now 'cause we keep on running  
Stop us now 'cause we keep on running on.
