

## I'm Alright

Kids In The Way

I run away when I get scared  
I find a place where no ones there  
And I cry

My Shame it comes its like a glove  
It leaves me enough to choke  
And I'm Stranded

When I fall down  
You pick me up  
You wipe my eyes  
And say its alright

Its Alright

Hes the one that knows  
The place I go  
He never fails to let me know  
I'm forgiven

He sees the good in you and me  
He throws our sins into the sea  
They're forgotten  
They're forgotten

Its alright

And no matter where you go  
No matter what you know  
No matter who you are  
No matter what you thought  
Its forgiven

And no matter what you say  
No matter time of day  
NO matter how you look  
No matter what you took  
Its forgotten
