

Just A Little Bit

Kids of 88

Working your fingers to the bone
Driving you mad and he shoulda known
Wrap it baby I'm taking you home
Get off your throne
I want you alone

Take just a little bit of time
Just to make you feel alright
Just enough to ease the party
Hit the lights!

You've got pressure dripping off your shoulders
Let me be the one to relieve it!
Let's get unprofessional
Don't you know its gonna feel much better with...

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Feeling the tension
Feeling the stress
I've got a notion I want to confess
Looking so good when your hair is a mess
Tearing the buttons right off of your dress

Working you over time I'm
Getting you over the line I'm
Climbing your ladder and making you better
Coz here's what you need!

You've got pressure dripping off your shoulders
Let me be the one to relieve it!
Let's get unprofessional
Don't you know its gonna feel much better with...

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
Just a little.

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
It's what you need!

Just a little bit
Just a little bit
Just a little bit
It's what you need!
